

A comprehensive offering of sterile-packaged plates and screws indicated for craniomaxillofacial reconstructive and revision procedures.

Key Advantages

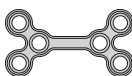

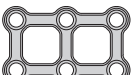

- Delivered sterile
- Lot traceability
- Mesh options
- Efficient inventory control
- Skull base plates
- Standard and low-profile plates

1.5mm Configurations

Image	Single Pack Part Number	Twelve Pack Part Number	Description	Contents (in each cassette)	Quantity (in each cassette)

				91-6104	9

Items not to scale

*SterileTrac configurations that include extra long plates are often used for HTR PMMA or PEKK cases because the extra plate length can span the tapered edges of custom cranioplasty implants.
